

Subject Index to Volume 3

A

- Acetylcholine
maturation, tracheal smooth muscle contraction, L130
release, prejunctional inhibition of, bronchi, L304
- Acetylcholinesterase, maturation of, tracheal smooth muscle contraction, L130
- Acid, aspiration, edema, phalloidin and, L378
- Acinar cells, trachea, intracellular calcium concentration, L345
- Acrolein, eicosanoid release and, airway epithelial cells (bovine), L222
- Adenosine monophosphate, cyclic chloride secretion and, β -adrenergic mediated, L426
hormonally regulated proteins and, fetal lung, L283
regulation of surfactant protein A mRNA, fetal lung, L488
- Adenosine triphosphatase, myofibrillar, activity, tracheal smooth muscle, L53
- Adenosine triphosphate
depletion, hydrogen peroxide and, macrophages, L87
hydrogen peroxide exposure, alveolar type II cells after, L57
lung injury, after short-term hyperoxia, L451
- Adenyl cyclase, chloride secretion and, β -adrenergic mediated, L426
- Adrenergic fibers, neural control, goblet cell secretion, airway (guinea pig), L108
- Airway
bronchiolar epithelial cells, arachidonic acid metabolism and ion transport in, L213
epithelial cells
eicosanoid release, acrolein effects (bovine), L222
growth in, cysteinyl leukotrienes and, L255
epithelial chloride channels, calcium-dependent activation, phosphorylation and, L410
epithelium
mechanical removal, mast cells and granules with (ferret), L372
neonate, L415
plasticity in, L38
glands, α -adrenergic regulation of secretion, L198
goblet cell secretion, neural control of (guinea pig), L108
histamine stimulation, *c-fos* expression, L365
isocyanate exposure, T-cell activation and, L320
muscarinic receptors, pre- and postjunctional, L304
parasympathetic ganglia, electrophysiological properties of neurons in (guinea pig), L403
response, asthma, cellular LTB₄ production and (sheep), L136
smooth muscle, epithelium-dependent contraction, eosinophil MBP and, L294
smooth muscle cells
dihydropyridine-sensitive calcium channels, L468
potassium currents in, L384
Aldosterone, regulation, basolateral potassium channels, alveolar epithelium (frog), L230
Allopurinol, surfactant metabolism and, L328
Alveolar cells
type II
development, fetus and neonate, L359
differentiation, arachidonate metabolism and, L73
growth factors for, derived from lung fibroblasts, L247
hormonally regulated proteins in, fetus, L283
metabolic changes after hydrogen peroxide, L57
palmitic acid uptake, L206
surfactant clearance and recycling, L1
surfactant metabolism, reactive oxygen species and, L328
Alveolar compartment, radiolabeled lamellar bodies and, L238
Alveolar epithelium, basolateral potassium channels, aldosterone regulation of (frog), L230
Amiloride, sodium and chloride transport, tracheal epithelium (horse), L459
Amphotericin B, basolateral potassium channels, aldosterone regulation of, alveolar epithelium (frog), L230
Arachidonic acid
growth and cysteinyl leukotrienes, airway epithelial cells, L255
metabolism
alveolar type II cell differentiation, L73
clara cells, L213
late airway response in asthma and (sheep), L136
release, acrolein effects, airway epithelial cells (bovine), L222
Asthma
cysteinyl leukotrienes and growth, airway epithelial cells, L255
exposure to isocyanates, T-cell activation and, L320
histamine stimulation, *c-fos* expression, L365
increased myosin phosphorylation, tracheal smooth muscle, L53
late airway response, LTB₄ cellular production and (sheep), L136
ATP: see Adenosine triphosphate
ATPase: see Adenosine triphosphatase; Sodium-potassium-ATPase

B

- BAY R 5417, calcium channels sensitive to, airway smooth muscle cells, L468

- Bleomycin, type IV procollagen mRNA and, pulmonary, L47
- Bronchi
epithelium, mechanical removal, mast cells and granules in (ferret), L372
histamine stimulation, *c-fos* expression, L365
muscarinic receptors, pre- and postjunctional, L304
smooth muscle cells, dihydropyridine-sensitive calcium channels, L468
Bronchial epithelial cells
isocyanate exposure, T-cell activation and, L320
urokinase and PAI-1 expression, TGF- β , modulation of, L262
Bronchiolitis, pulmonary fibrosis and, L159
Bumetanide, sodium and chloride transport, tracheal epithelium (horse), L459
Butyrate, regulation, surfactant protein A mRNA, fetal lung, L488

C

- Calcium
activation dependent on, chloride channels, airway epithelium, L410
intracellular
acinar cells, tracheal submucosal glands, L345
concentration, hydrogen peroxide and, macrophages, L87
regulation, sodium chloride, tracheal epithelial cells, L66
Calcium channels, dihydropyridine-sensitive, airway smooth muscle cells, L468
Calcium ionophores, phospholipase activity and, alveolar epithelial cells, L439
cAMP: see Adenosine monophosphate, cyclic
Catalase, lung injury, after short-term hyperoxia, L451
Chloride
secretion
calcium-dependent activation, airway epithelium, L410
non-cAMP β -adrenergic mediated, L426
transport, tracheal epithelium (horse), L459
Chloride channels, airway epithelial, calcium-dependent activation, phosphorylation and, L410
Choline, lamellar bodies, instillation in alveolar compartment, L238
Cigarette smoke, eicosanoid release and, airway epithelial cells (bovine), L222
Clara cells, arachidonic acid metabolism, regulation of ion transport and, L213
Clonidine, regulation of sodium chloride, tracheal epithelial cells, L66
Colony-stimulating factor, protooncogene expression and, alveolar macrophages, L144

CSF: *see* Colony-stimulating factor
 Cycloheximide, enhancement of endothelial cell injury, L123
 Cyclooxygenase
 metabolism, late airway response in asthma and (sheep), L136
 release, acrolein effects, airway epithelial cells (bovine), L222
 Cyclophosphamide, type IV procollagen mRNA and, pulmonary, L47
 Cytidine 5'-diphosphocholine, lamellar bodies, instillation in alveolar compartment, L238
 Cytokines, pulmonary fibrosis and, L159

D

Development: *see also* Growth; Maturation
 pulmonary, ion transport, perinatal period, L30
 type II cells, fetus and neonate, L359
 Dexamethasone, hormonally regulated proteins and, fetal lung, L283
 Diaphragm, myosin isoforms in, neonate, L116
 Dihydroergocryptine, ³H-labeled, α -adrenergic regulation of secretion, L198
 Dihydropyridine, calcium channels sensitive to, airway smooth muscle cells, L468

E

Edema
 pulmonary
 acid aspiration, phalloidin and, L378
 antibody against integrin and, L315
 Eicosanoids
 alveolar type II cell differentiation, arachidonate metabolism and, L73
 growth and cysteinyl leukotrienes, airway epithelial cells, L255
 metabolism, clara cells, L213
 release, acrolein effects, airway epithelial cells (bovine), L222
 Elastase, lung injury, after short-term hyperoxia, L451
 Elastin, synthesis, lung, L13
 Emphysema, pulmonary, elastin synthesis and, L13
 Endothelial cells, tumor necrosis factor-induced injury, enhancement by cycloheximide, L123
 Enzymes: *see also* specific enzyme activity
 thrombin-mediated increase in endothelial permeability and, L270
 urokinase receptor localization of, macrophages, L432
 Eosinophil MBP, epithelium-dependent contraction and, airway smooth muscle, L294
 Epinephrine, regulation of sodium chloride, tracheal epithelial cells, L66
 Epithelial cells
 pulmonary
 ionic transport, perinatal period, L30
 neonate, L415
 tracheal, calcium and α -adrenergic regulation of sodium chloride, L66
 Epithelium-derived relaxing factor, mechanical removal of airway epithelium, mast cells and (ferret), L372
 Extensor digitorum muscle, myosin isoforms in, neonate, L116

F

Fatty acids, uptake, alveolar type II cells, L206
 Fetus
 hormonally regulated proteins, lung, L283
 lung liquid secretion and absorption, perinatal period, L30
 lung maturation, regulation of, L337
 regional type II cell development, ultrastructural analysis, L359
 Fibroblasts
 pulmonary, mitogens for type II cells derived from, L247
 pulmonary fibrosis and, L159

G

Gel electrophoresis, hormonally regulated proteins, fetal lung, L283
 Gene
 expression, strategies for analysis, L185
 regulation, lung maturation and, fetus, L337
 Glucocorticoids, regulation of surfactant protein A mRNA, fetal lung, L488
 γ -Glutamyl transpeptidase, protection from hyperoxia, alveolar macrophages, L102
 Glutathione
 lung injury, after short-term hyperoxia, L451
 oxidant injury and, alveolar macrophages, L102
 Goblet cells, secretion, neural control of, airway (guinea pig), L108
 Growth: *see also* Development; Maturation
 airway epithelial cells, cysteinyl leukotrienes and, L255
 Growth factors
 alveolar type II cells, derived from lung fibroblasts, L247
 epithelial cell, neonatal lung, L415
 urokinase and PAI-1 expression, bronchial epithelial cells, L262

H

Histamine, *c-fos* expression, airway smooth muscle, L365
 Hydrogen peroxide
 exposure, metabolic changes after, alveolar type II cells, L57
 oxygen metabolites derived from, surfactant metabolism and, L328
 phagocytic functions and, alveolar macrophages, L87
 Hyperoxia
 γ -glutamyl transpeptidase protection from, alveolar macrophages, L102
 prostaglandin synthesis and, perinatal lung cells, L95
 short-term, lung injury after, L451
 Hyperplasia, histamine stimulation, *c-fos* expression, L365
 Hypertension, hypoxic pulmonary, polyamine accumulation in, L351
 Hypochlorous acid, production, neutrophils, TNF infusion effects, L276

I

Indomethacin, metabolism, clara cells, L213
 Integrin, antibody against, reperfusion-induced lung injury and, L315

γ -Interferon, hormonally regulated proteins and, fetal lung, L283
 Interleukin 1, TNF infusion and, neutrophils, L276
 Ionic currents, respiratory neurobiology, L24
 Ions
 transport
 arachidonic acid regulation of, clara cells, L213
 lung epithelium, perinatal period, L30
 Isocyanates, exposure to, bronchial epithelial cells, T-cell activation and, L320

L

Lactate dehydrogenase, release, acrolein effects, airway epithelial cells (bovine), L222
 Lamellar bodies, radiolabeled, alveolar compartment, L238
 Leukocytes, polymorphonuclear, acid aspiration edema, phalloidin and, L378
 Leukotrienes, cysteinyl, growth and, airway epithelial cells, L255
 Leukotriene B₄
 acid aspiration edema, phalloidin and, L378
 cellular production, airway response in asthma and (sheep), L136
 Lidocaine, basolateral potassium channels, aldosterone regulation of, alveolar epithelium (frog), L230
 Lipoygenase
 metabolism, late airway response in asthma and (sheep), L136
 release, acrolein effects, airway epithelial cells (bovine), L222
 LTB₄: *see* Leukotriene B₄
 Lung
 airway epithelium, mechanical removal, mast cells and granules in (ferret), L372
 elastin synthesis, regulation of, L13
 epithelial cells
 calcium ionophores and phospholipase activity, L439
 developmental differences in sodium-potassium-ATPase, L481
 neonate, L415
 epithelium, arachidonate metabolism, L73
 hormonally regulated proteins, fetus, L283
 hormone and butyrate regulation, surfactant protein A mRNA, fetus, L488
 injury
 reperfusion-induced, antibody against integrin and, L315
 short-term hyperoxia, L451
 xanthine, VIP effects, L151
 ion transport, epithelial, perinatal period, L30
 maturation, fetus, regulation of, L337
 peripheral strip contraction, PAF and, species differences, L81
 polyamine accumulation, hypoxic pulmonary hypertension, L351
 regional type II cell development, fetus and neonate, L359
 surfactant proteins, analysis of gene expression, L185
 surfactant: *see* Surfactant
 Lung cells, perinatal, prostaglandin synthesis, hyperoxia effects, L95

M

- Macrophages
 - alveolar
 - hyperoxia, protection by γ -glutamyl transpeptidase, L102
 - phagocytic functions of, hydrogen peroxide effects, L87
 - protooncogene expression, CSF effects, L144
 - urokinase receptors, enzyme activity and, L432
 - injury, TNF-induced, cycloheximide effects, L123
 - production, TNF and PGE_2 , virus-induced alterations in, L396
- Mast cells, airway epithelium removal effects (ferret), L372
- Maturation; *see also* Development; Growth
 - acetylcholinesterase expression, tracheal smooth muscle contraction, L130
 - lung
 - fetus, regulation of, L337
 - sodium-potassium-ATPase, L481
- Membrane
 - basement
 - lung, fibrosis, L159
 - procollagen IV and laminin mRNA in pulmonary fibrosis, L47
- Mitogens, for type II cells, derived from lung fibroblasts, L247
- Mucociliary cells, plasticity in, airway epithelium, L38
- Mucus, secretion, neural control of, airway (guinea pig), L108
- Muscle, smooth
 - airway
 - epithelium-dependent contraction, eosinophil MBP and, L294
 - histamine stimulation of *c-fos* expression, L365
 - mechanical removal of epithelium, mast cells and (ferret), L372
 - muscarinic receptors, L304
 - tracheal
 - increased myosin phosphorylation in, L53
 - maturation of acetylcholinesterase expression, L130
- Muscle cells
 - smooth
 - airway, potassium currents in, L384
 - contraction, PAF and, lung, L81
- Myeloperoxidase, activity, reperfusion-induced lung injury and, L315
- Myocytes, injury, TNF-induced, cycloheximide effects, L123
- Myosin
 - isoforms, muscle, neonate, L116
 - phosphorylation, tracheal smooth muscle, L53

N

- Neonate
 - epithelial cells, lung, L415
 - myosin isoforms, muscle, L116
 - regional type II cell development, ultrastructural analysis, L359
- Neural control, goblet cell secretion, airway (guinea pig), L108
- Neurobiology, respiratory, recent advances, L24
- Neurons, bronchial parasympathetic ganglia, electrophysiological properties (guinea pig), L403

- Neuropeptides
 - goblet cell secretion, airway (guinea pig), L108
 - xanthine lung injury and, L151
- Neurotransmitters, respiratory neurobiology, L24
- Neutrophils
 - lung injury, reperfusion-induced, antibody against integrin and, L315
 - TNF infusion, hypochlorous acid production and, L276
- Nisoldipine, calcium channels sensitive to, airway smooth muscle cells, L468

O

- Ornithine decarboxylase, accumulation, lung, hypoxic pulmonary hypertension, L351
- Oxidants
 - lung injury
 - after short-term hyperoxia, L451
 - alveolar type II cells after hydrogen peroxide, L57
 - γ -glutamyl transpeptidase in, alveolar macrophages, L102
 - VIP effects, L151
 - stable, TNF infusion in neutrophils and, L276
- Oxygen
 - reactive species, surfactant metabolism and, L328
 - toxicity, prostaglandin synthesis and, perinatal lung cells, L95
- Oxygen metabolites, reactive, VIP effects, lung, L151

P

- PAI-1; *see* Plasminogen activator inhibitor type 1
- Palmitic acid, uptake, alveolar type II cells, L206
- Peptides; *see also* Polypeptides
 - vasoactive intestinal, xanthine lung injury and, L151
- Permeability
 - acid aspiration edema, phalloidin and, L378
 - endothelial, thrombin-mediated increase, enzymatic activity effects, L270
 - vascular, antibody against integrin and, L315
- PGE_2 ; *see* Prostaglandin E_2
- Phagocytosis, hydrogen peroxide effects, alveolar macrophages, L87
- Phalloidin, acid aspiration edema and, L378
- Phospholipase, activity, calcium ionophores and alveolar epithelial cells, L439
- Phospholipids, surfactant, clearance and recycling, L1
- Phosphorylcholine, lamellar bodies, instillation in alveolar compartment, L238
- Pindolol, chloride secretion and, β -adrenergic mediated, L426
- Plasminogen activator inhibitor type 1, expression, TGF- β , modulation of, bronchial epithelial cells, L262
- Plasticity, airway epithelium, L38
- Platelet-activating factor, peripheral lung strip contraction and, species differences, L81

- Pneumonia, obliterans and organizing, pulmonary fibrosis, L159
- Polyamines, accumulation, lung, hypoxic pulmonary hypertension, L351
- Polypeptides; *see also* Peptides
 - mediation, endothelial cell injury and, L123
- Potassium channels
 - basolateral, aldosterone regulation of, alveolar epithelium (frog), L230
 - smooth muscle cells, airway, L384
- Potassium chloride, acetylcholinesterase expression, tracheal smooth muscle contraction, L130
- Potassium currents, smooth muscle cells, airway, L384
- Potentials
 - excitatory junction, bronchi, L304
 - synaptic, bronchial ganglia (guinea pig), L403
- Prostacyclin, synthesis, stimulation by hyperoxia, perinatal lung cells, L95
- Prostaglandins
 - growth and cysteinyl leukotrienes, airway epithelial cells, L255
 - metabolism
 - alveolar type II cell differentiation, L73
 - clara cells, L213
 - release, acrolein effects, airway epithelial cells (bovine), L222
 - synthesis, stimulation by hyperoxia, perinatal lung cells, L95
- Prostaglandin E_2 , production, macrophages, virus-induced alterations in, L396
- Protamine, lung injury, after short-term hyperoxia, L451
- Protein
 - contractile, muscle, neonate, L116
 - eosinophil, epithelium-dependent contractions and, airway, L294
 - hormonally regulated, lung, fetus, L283
 - surfactant
 - analysis of gene expression, L185
 - lung maturation and, fetus, L337
 - regulation by hormones and butyrate, fetal lung, L488
- Protooncogene, expression, CSF effects, alveolar macrophages, L144
- Pulmonary fibrosis
 - pathophysiology of, L159
 - procollagen IV, laminin mRNA and, L47
- Pump, sodium, developmental differences, lung epithelial cells, L481
- Putrescine, lung, hypoxic pulmonary hypertension, L351
- Pyrophosphate gels, muscle, neonate, L116

R

- Receptors
 - α -adrenergic, sodium chloride, tracheal epithelial cells, L66
 - muscarinic, pre- and postjunctional, bronchi, L304
 - urokinase, enzyme activity and, alveolar macrophages, L432
- Respiratory failure, acute, fibroblast-derived mitogens for alveolar type II cells, L247
- Respiratory syncytial virus, alterations in TNF and PGE_2 production, macrophages, L396
- Rhythmogenesis, respiratory, recent advances, L24

S

- Sodium, transport, tracheal epithelium (horse), L459
- Sodium chloride, calcium and α -adrenergic regulation, tracheal epithelial cells, L66
- Sodium-chloride cotransport, tracheal epithelium (horse), L459
- Sodium-potassium-ATPase
 - epithelial cell, lung, developmental differences, L481
 - transport, lung, perinatal period, L30
- Soleus muscle, myosin isoforms in, neonate, L116
- Species differences, peripheral lung strip contraction, PAF and, L81
- Spermidine, lung, hypoxic pulmonary hypertension, L351
- Substance P, intracellular calcium and, acinar cells, tracheal submucosal glands, L345
- Superoxide, production, γ -glutamyl and, alveolar macrophages, L102
- Superoxide anions, production, phagocytosis and, macrophages, L87
- Surfactants
 - pulmonary
 - alveolar type II cells, L206
 - clearance and recycling, L1
 - fibroblast-derived, type II cells, L247
 - metabolism, reactive oxygen species and, L328
 - regional type II cell development and, fetus and neonate, L359
 - reuptake, alveolar compartment, L238

T

- T-cells, activation, bronchial epithelial cell exposure to isocyanates and, L320
- TGF- β : *see* Transforming growth factor- β
- Thrombin, increase in permeability mediated by, endothelial, enzymatic activity effects, L270
- Thromboxane B₂, acid aspiration edema, phalloidin and, L378
- TNF: *see* Tumor necrosis factor
- Trachea
 - epithelial cells, acrolein effects on eicosanoid release (bovine), L222
 - epithelium
 - mechanical removal, mast cells and granules in (ferret), L372
 - sodium and chloride transport (horse), L459
 - histamine stimulation, *c-fos* expression, L365
 - smooth muscle
 - increased myosin phosphorylation in, L53
 - maturation of acetylcholinesterase expression, L130
 - submucosal glands, acinar cells, intracellular calcium concentration, L345
- Tracheal gland, secretion, α -adrenergic regulation of, L198
- Transforming growth factor- β , modulation, urokinase and PAI-1 expression, bronchial epithelial cells, L262
- Tropoelastin, synthesis, lung, L13
- Tryptase, mechanical removal of airway epithelium, mast cells and (ferret), L372

Tumor necrosis factor

- endothelial cell injury induced by, enhancement by cycloheximide, L123
- infusion, neutrophils, hypochlorous acid production and, L276
- production, macrophages, virus-induced alterations in, L396

U

- Urokinase
 - expression, TGF- β , modulation of, bronchial epithelial cells, L262
 - receptors: *see* Receptors

V

- Vagus nerve, tonic and phasic neurons, bronchial ganglia (guinea pig), L403
- VIP: *see* Peptides or Polypeptides, vasoactive intestinal

X

- Xanthine oxidase
 - lung injury, VIP effects, L151
 - oxygen metabolites derived from, surfactant metabolism and, L328

Y

- Yohimbine, regulation of sodium chloride, tracheal epithelial cells, L66
